Linux Shell Scripting Tutorial - A Beginner's handbook:About 1

Chapter 1: Quick Introduction to Linux 4

What Is Linux 4
Who created Linux 5
Where can I download Linux 6
How do I Install Linux 6
Linux usage in everyday life 7
What is Linux Kernel 7
What is Linux Shell 8
Unix philosophy 11
But how do you use the shell 12
What is a Shell Script or shell scripting 13
Why shell scripting 14
Chapter 1 Challenges 16

Chapter 2: Getting Started With Shell Programming 17

The bash shell 17
Shell commands 19
The role of shells in the Linux environment 21
Other standard shells 23
Hello, World! Tutorial 25
Shebang 27
Shell Comments 29
Setting up permissions on a script 30
Execute a script 31
Debug a script 32
Chapter 2 Challenges 33

Chapter 3:The Shell Variables and Environment 34

Variables in shell 34
Assign values to shell variables 38
Default shell variables value 40
Rules for Naming variable name 41

Display the value of shell variables 42
Quoting 46
The export statement 49
Unset shell and environment variables 50
Getting User Input Via Keyboard 50
Perform arithmetic operations 54
Create an integer variable 56
Create the constants variable 57
Bash variable existence check 58
Customize the bash shell environments 59
Recalling command history 63
Path name expansion 65
Create and use aliases 67
The tilde expansion 69
Startup scripts 70
Using aliases 72
Changing bash prompt 73
Setting shell options 77
Setting system wide shell options 82
Chapter 3 Challenges 83

Chapter 4: Conditionals Execution (Decision Making) **84**

Bash structured language constructs 84
Test command 86
If structures to execute code based on a condition 87
If..else..fi 89
Nested ifs 92
Multilevel if-then-else 93
The exit status of a command 94
Conditional execution 97
Logical AND && 97
Logical OR || 98
Logical Not ! 99
Conditional expression using [101
Conditional expression using <nowiki>[[</nowiki> 102
Numeric comparison 102
String comparison 104
File attributes comparisons 105

Shell command line parameters 110
How to use positional parameters 112
Parameters Set by the Shell 114
Create usage messages 115
Exit command 117
The case statement 119
Dealing with case sensitive pattern 123
Chapter 4 Challenges 126

Chapter 5: Bash Loops **127**
The for loop statement 127
Nested for loop statement 133
The while loop statement 135
Use of : to set infinite while loop 139
The until loop statement 141
The select loop statement 143
Exit the select loop statement 146
Using the break statement 148
Using the continue statement 150
Command substitution 153
Chapter 5 Challenges 155

Chapter 6: Shell Redirection **157**
Input and Output 157
Standard input 158
Standard output 159
Standard error 160
Empty file creation 161
/dev/null discards unwanted output 162
Here documents 164
Here strings 166
Redirection of standard error 167
Redirection of standard output 169
Appending redirected output 170
Redirection of both standard error and output 170
Writing output to files 171
Assigns the file descriptor (fd) to file for output 173
Assigns the file descriptor (fd) to file for input 174

Closes the file descriptor (fd) 175
Opening the file descriptors for reading and writing 175
Reads from the file descriptor (fd) 176
Executes commands and send output to the file descriptor (fd) 179
Chapter 6 Challenges 185

Chapter 7: Pipes and Filters **186**
Linking Commands 186
Multiple commands 187
Putting jobs in background 188
Pipes 190
How to use pipes to connect programs 191
Input redirection in pipes 193
Output redirection in pipes 194
Why use pipes 194
Filters 195
Chapter 7 Challenges 197

Chapter 8: Traps **198**
Signals 198
What is a Process? 199
How to view Processes 201
Sending signal to Processes 204
Terminating Processes 206
Shell signal values 209
The trap statement 210
How to clear trap 212
Include trap statements in a script 214
Use the trap statement to catch signals and handle errors 216
What is a Subshell? 220
Compound command 222
Exec command 223
Chapter 8 Challenges 224

Chapter 9: Functions **225**
Writing your first shell function 225
Displaying functions 226
Removing functions 228
