

Introduction to T4 Site Manager (Contributor training)

Practical workbook

Aims and Learning Objectives

The overall aim of this course is to enable you to create and modify content to University standards on the University website using the TERMINALFOUR (T4) Site Manager.

By the end of this course you will have gained a working knowledge of Site Manager and, as a Contributor, you will be able to:

- add, modify, preview and delete content within existing sections;
- add and modify content using Site Manager's Direct Edit mode;
- resize and optimise images for using on the web;
- add images and files to Site Manager's Media Library;
- format content (including creating links and inserting images) using the built-in visual editor TinyMCE.

Introduction

TERMINAL FOUR Site Manager is the new University of Bristol Web Content Management System (CMS) for public facing websites. It is a web-based tool for managing and publishing content on the University website.

It makes it easier than ever for people with no technical knowledge of the web to edit and publish web content easily and quickly.

Some of the CMS features and benefits include:

- user-friendly interface;
- easy content publishing via a Word-like WYSIWYG editor and Direct Edit mode;
- flexible workflow management to ensure quality control;
- flexible user rights and roles to control access to relevant areas of the website;
- easy to enforce template and consistent look and feel;
- built-in web accessibility and standards compliance.

Prerequisites

Basic computer skills.
