# Table of Contents

Foreword .....	vi
1. Enumerations and Enumeration Attributes .....	1
1. Enumerations .....	1
1.1. Simple Enumerations .....	2
1.2. Code Lists .....	2
1.3. Record Enumerations .....	2
2. Enumeration Attributes .....	3
3. Enumerations in Computational Languages .....	4
3.1. Enumerations in SQL .....	4
3.2. Enumerations in XML Schema .....	4
3.3. Enumerations in JavaScript .....	5
2. Implementing Enumeration Attributes in a Plain JS App .....	7
1. New Issues .....	8
2. Make a JavaScript Data Model .....	9
3. Set up the Folder Structure with Library Files .....	9
4. The Meta-Class Enumeration .....	10
5. Write the Model Code .....	11
5.1. Encode the enumerations .....	11
5.2. Encode the model class as a constructor function .....	11
5.3. Encode the enumeration attribute checks .....	11
5.4. Encode the enumeration attribute setters .....	12
5.5. Write a serialization function .....	12
5.6. Data management operations .....	12
5.7. Creating test data .....	13
6. Write the View and Controller Code .....	13
6.1. Selection lists .....	14
6.2. Choice widgets .....	15
6.3. Responsive validation for selection lists and choice widgets .....	16
7. Run the App and Get the Code .....	16
8. Possible Variations and Extensions .....	16
9. Points of Attention .....	17
9.1. Database size and memory management .....	17
9.2. Boilerplate code .....	17
10. Practice Project .....	17

---

## List of Figures

1.1. The simple enumeration <code>GenderEL</code> represented as a UML enumeration data type .....	2
1.2. The enumeration <code>GenderEL</code> defined as a code list .....	2
1.3. A single and a multiple <code>select</code> element with no selected option .....	
1.4. A radio button group .....	
1.5. A checkbox group .....	
2.1. An information design model for the object type <code>Book</code> .....	7
2.2. A JavaScript data model, for the object type <code>Book</code> .....	9
2.3. The user interface for creating a new book record with ISBN, title and four enumeration attributes .....	14
2.4. The object type <code>Movie</code> defined together with two enumerations. ....	17

---

## List of Tables

1.1. Representing an enumeration of records as a table .....	1
1.2. Representing a record enumeration as a table .....	3
2.1. Sample data for <code>Book</code> .....	7
2.2. Sample data .....	18
