Table of Contents

Preface xi
1. Spring: Evolution Over Intelligent Design xi
2. A Little History xi
3. Goals of This Book xii
4. A Note about Format xii
I. Spring Introduction 14
Spring In Context: Core Concepts 15
1. Spring and Inversion of Control 16
Dependency Inversion: Precursor to Dependency Injection 16
2. Dependency Injection To The Rescue 19
3. Bean management through IoC 20
4. Our Example In Spring IoC 20
A Practical Introduction to Inversion of Control 21
1. Basic Bean Creation 21
2. Basic Constructor Injection 22
3. Basic Setter Injection 23
4. Reference Injection 24
5. Creating a Spring Application 25
6. Unit Test Beans from Application Context 26
7. Getting Started 28
Setup 28
8. Reference 28
Related Links 29
Project Information 29
II. Core 30
AspectJ Load-time Weaving in Spring 31
1. JVM Argument 31
2. Spring Configuration 31
3. AspectJ Configuration 32
4. Code Example 32
5. Reference 33
Related Links 33
Project Setup 33
Project Information 33
III. Persistence 34
Simple Spring JDBC Template 35
1. Spring Configuration 35
2. Code Example 35
3. Reference 35
Related Links 36
Simple Hibernate XML Configuration 37
1. Spring Configuration 37
2. Hibernate Configuration 37
3. SQL Script 38

4. Code Example 38
5. Reference 39
Related Links 39
One to Many Hibernate XML Configuration 40
1. Spring Configuration 40
2. Hibernate Configuration 41
3. SQL Script 42
4. Code Example 42
5. Reference 43
Related Links 43
Project Setup 44
Project Information 44
One to Many Hibernate Annotation Configuration 45
1. Spring Configuration 45
2. Hibernate Configuration 46
3. SQL Script 49
4. Code Example 50
5. Reference 51
Related Links 51
Project Setup 51
Project Information 51
One to Many JPA Hibernate Configuration 52
1. Spring Configuration 52
2. JPA Entity Configuration 53
3. JPA Configuration 56
4. Code Example 57
5. Reference 59
Related Links 59
Project Setup 59
Project Information 60
JPA Joined Inheritance 61
1. Spring Configuration 61
2. JPA Entity Configuration 62
3. JPA Configuration 65
4. Code Example 66
5. SQL Script 67
6. Reference 68
Related Links 68
Project Setup 68
Project Information 69
Spring Data JPA 70
1. Spring Configuration 70
2. JPA Configuration 71
3. Repository 71
4. Code Example 73
5. Reference 75
Related Links 75
Project Setup 75
Project Information 76

Spring Data JPA Auditing 77
1. Spring Configuration 77
2. JPA Configuration 77
3. Code Example 78
4. SQL Script 80
5. Reference 81
Related Links 81
Project Setup 81
Project Information 82
Hibernate Transaction Annotation Configuration 83
1. Spring Configuration 83
2. Code Example 83
3. Reference 84
Related Links 84
Project Setup 85
Project Information 85
Simple Spring Transactional JUnit 4 Test 86
1. Spring Configuration 86
2. Code Example 86
3. Reference 88
Related Links 88
Project Setup 88
Project Information 89
IV. Web 90
Simple Tiles 2 Spring MVC Webapp 91
1. Spring Configuration 91
2. Tiles XML Configuration 91
3. JSP Example 92
4. Reference 93
Related Links 93
Project Setup 93
Project Information 93
Basic Webapp Internationalization 94
1. Web Configuration 94
2. Spring Configuration 94
3. JSP Example 95
4. Message Resource Property Files 96
5. Reference 96
Related Links 96
Project Setup 97
Project Information 97
Simple Spring MVC Form Annotation Configuration Webapp 98
1. Web Configuration 98
2. Spring Configuration 99
3. JSP Example 100
4. Code Example 101
5. Reference 103
Related Links 103
Project Setup 103

Project Information 104
Simple Spring Security Webapp 105
1. Web Configuration 105
2. Spring Configuration 106
3. JSP Example 107
4. Code Example 108
5. SQL Script 109
6. Reference 109
Related Links 109
Project Setup 109
Project Information 110
Simple Spring Web Flow Webapp 111
1. Web Configuration 111
2. Spring Configuration 111
3. JSP Example 115
4. Code Example 117
5. Reference 119
Related Links 119
Project Setup 119
Project Information 119
Spring Web Flow Subflow Webapp 120
1. Spring Configuration 120
2. JSP Example 124
3. Code Example 128
4. Reference 130
Related Links 130
Project Setup 131
Project Information 131
Simple Grails Webapp 132
1. Create Application 132
2. Modify Code 134
3. Run Application 136
4. Reference 136
Related Links 136
Project Setup 136
Project Information 137
Simple Flex Webapp 138
1. Web Configuration 138
2. Spring Configuration 139
3. Adobe BlazeDS Configuration 140
4. Code Example 142
5. Flex Code Example 142
6. Reference 149
Related Links 149
Project Setup 149
Project Information 149
V. Enterprise 150
Simple Spring JMS 151
1. Producer Configuration 151
