Introduction to C++: Exercises (with solutions)

Leo Liberti

Last update: December 12, 2011

Contents

1 Generalities **7**

1.1 Definition of *program* . . . 7

1.1.1 Solution . . . 7

1.2 Definition of *programming language* . . . 7

1.2.1 Solution . . . 7

1.3 Indentation . . . 8

1.3.1 Solution . . . 9

2 Basic syntax **11**

2.1 A minimal C++ program . . . 11

2.1.1 Solution . . . 11

2.2 Variables and pointers . . . 11

2.2.1 Solution . . . 12

2.3 The second word . . . 12

2.3.1 Solution . . . 13

2.4 Random numbers . . . 14

2.4.1 Solution . . . 14

2.5 The second column . . . 15

2.5.1 Solution . . . 16

3 Classes **19**

3.1 Complex numbers . . . 19

3.1.1 Solution . . . 20

3.2 Virtual inheritance . . . 22

3.2.1 Solution . . . 24

3.3 Virtual and nonvirtual inheritance . . . 24
3.3.1 Solution . . . 25
3.4 Nonvirtual base class destructor . . . 25
3.4.1 Solution . . . 26

4 Debugging **27**
4.1 Segmentation fault . . . 27
4.1.1 Solution . . . 27
4.2 Pointer bug . . . 30
4.2.1 Solution . . . 31
4.3 Scope of local variables . . . 33
4.3.1 Solution . . . 33
4.4 Erasing elements from a vector . . . 34
4.4.1 Solution . . . 34

5 A full-blown application **37**
5.1 The software architecture . . . 38
5.1.1 Description . . . 38
5.1.2 Formalization of requirements . . . 38
5.1.3 Modularization of tasks . . . 38
5.1.4 Main algorithm . . . 39
5.1.5 Fundamental data structures . . . 39
5.1.6 Classes . . . 39
5.2 The `TimeStamp` class . . . 40
5.2.1 Solution . . . 41
5.3 The `FileParser` class . . . 41
5.3.1 Solution . . . 43
5.4 The `HTMLPage` class . . . 43
5.4.1 Solution . . . 44
5.5 The `URL` class . . . 44
5.5.1 Solution . . . 45
5.6 The `Vertex` interface and `VertexURL` implementation . . . 45
5.6.1 Solution . . . 45

5.7 The `Arc` and `Digraph` classes . . . 45
5.7.1 Solution . . . 46
5.8 Putting it all together: `main()` . . . 46
5.8.1 Solution . . . 47

6 Exam questions **49**
6.1 Debugging question 1 . . . 49
6.1.1 Solution . . . 50
6.2 Debugging question 2 . . . 51
6.2.1 Solution . . . 51
6.3 Debugging question 3 . . . 52
6.3.1 Solution . . . 53
6.4 Debugging question 4 . . . 54
6.4.1 Solution . . . 55
6.5 Debugging question 5 . . . 55
6.5.1 Solution . . . 58
6.6 Debugging question 6 . . . 62
6.6.1 Solution . . . 62
6.7 Specification coding question 1 . . . 62
6.7.1 Solution . . . 64
6.8 Specification coding question 2 . . . 66
6.8.1 Solution . . . 69
6.9 Task question 1 . . . 71
6.9.1 Solution . . . 71
6.10 Task question 2 . . . 72
6.10.1 Solution . . . 72
6.11 Task question 3 . . . 74
6.11.1 Solution . . . 75

7 Questions from a banking C++ test **77**
7.1 Question 1 . . . 77
7.2 Question 2 . . . 77
7.3 Question 3 . . . 78
