OpenCV Java Tutorials Documentation

Release 1.0

Luigi De Russis, Alberto Sacco

Nov 26, 2017

Contents

1 Installing OpenCV for Java **3**
- 1.1 Introduction to OpenCV for Java . . . 3
- 1.2 Install the latest Java version . . . 3
- 1.3 Install the latest Eclipse version . . . 3
- 1.4 Install OpenCV 3.x under Windows . . . 3
- 1.5 Install OpenCV 3.x under macOS . . . 4
- 1.6 Install OpenCV 3.x under Linux . . . 4
- 1.7 Set up OpenCV for Java in Eclipse . . . 7
- 1.8 Set up OpenCV for Java in other IDEs (experimental) . . . 8

2 Your First Java Application with OpenCV **9**
- 2.1 A Java application with OpenCV . . . 9
- 2.2 What we will do in this tutorial . . . 9
- 2.3 Create a New Project . . . 9
- 2.4 Add a User Library . . . 10
- 2.5 Create a simple application . . . 11

3 Your First JavaFX Application with OpenCV **13**
- 3.1 A JavaFX application with OpenCV . . . 13
- 3.2 What we will do in this tutorial . . . 13
- 3.3 Your First Application in JavaFX . . . 13
- 3.4 Installing e(fx)clipse plugin and Scene Builder . . . 14
- 3.5 Working with Scene Builder . . . 16
- 3.6 Key Concepts in JavaFX . . . 20
- 3.7 Managing GUI Interactions With the Controller Class . . . 20
- 3.8 Video Capturing . . . 20

4 OpenCV Basics **23**
- 4.1 What we will do in this tutorial . . . 23
- 4.2 Getting started . . . 23
- 4.3 Color channel checkbox . . . 24
- 4.4 Load an Image and Add it to the Stream . . . 25
- 4.5 Calculate a Histogram . . . 27
- 4.6 Draw the Histogram . . . 28

5 Fourier Transform **31**
- 5.1 Goal . . . 31

5.2 What is the Fourier Transform? . . . 31
5.3 What we will do in this tutorial . . . 31
5.4 Getting Started . . . 32
5.5 Load the file . . . 32
5.6 Applying the DFT . . . 33
5.7 Applying the inverse DFT . . . 34
5.8 Analyzing the results . . . 34

6 Face Detection and Tracking **37**
6.1 Goal . . . 37
6.2 Cascade Classifiers . . . 37
6.3 What we will do in this tutorial . . . 37
6.4 Getting Started . . . 38
6.5 Loading the Classifiers . . . 38
6.6 Detection and Tracking . . . 39

7 Image Segmentation **43**
7.1 Goal . . . 43
7.2 Canny edge detector . . . 43
7.3 Dilatation and Erosion . . . 44
7.4 What we will do in this tutorial . . . 44
7.5 Getting Started . . . 44
7.6 Using the Canny edge detection . . . 45
7.7 Canny Result . . . 46
7.8 Using the Background Removal . . . 46
7.9 Background Removal Result . . . 48

8 Object Detection **49**
8.1 Goal . . . 49
8.2 Morphological Image Processing . . . 49
8.3 What we will do in this tutorial . . . 50
8.4 Getting Started . . . 50
8.5 Image processing . . . 51
8.6 Morphological Operators . . . 52
8.7 Object tracking . . . 52

9 Camera Calibration **55**
9.1 Goal . . . 55
9.2 What is the camera calibration? . . . 55
9.3 Calibration Pattern . . . 55
9.4 What we will do in this tutorial . . . 56
9.5 Getting Started . . . 56
9.6 Pattern Recognition . . . 58
9.7 Saving Data . . . 60
9.8 Camera Calibration . . . 60

10 Indices and tables **63**

Note: We are in the process to update these tutorials to use Java 8, only.
