|          |  |          |
|----------|--|----------|
| <b>1</b> | <b>Introduction</b>                              | <b>1</b> |
| 1.1      | Why This Guide? . . . . .                        | 1        |
| 1.2      | System and User Requirements . . . . .           | 2        |
| 1.3      | Notes . . . . .                                  | 2        |
| <b>2</b> | <b>SQL</b>                                       | <b>5</b> |
| 2.1      | SQL Basics . . . . .                             | 6        |
| 2.1.1    | Style Guide . . . . .                            | 7        |
| 2.1.1.1  | Conventions . . . . .                            | 7        |
| 2.1.1.2  | Capitalization . . . . .                         | 7        |
| 2.1.1.3  | Semicolons . . . . .                             | 8        |
| 2.1.1.4  | Asterisks . . . . .                              | 8        |
| 2.1.1.5  | Thrift . . . . .                                 | 8        |
| 2.1.1.6  | Aliases . . . . .                                | 8        |
| 2.1.1.7  | Comments . . . . .                               | 9        |
| 2.1.1.8  | Constraints . . . . .                            | 9        |
| 2.1.1.9  | Respect . . . . .                                | 9        |
| 2.1.1.10 | Formatting . . . . .                             | 10       |
| 2.1.1.11 | Coding Guidelines . . . . .                      | 10       |
| 2.1.2    | Query Processing Order . . . . .                 | 10       |
| 2.2      | Execution Plans . . . . .                        | 12       |
| 2.2.1    | Explain Plan . . . . .                           | 14       |
| 2.2.1.1  | Cardinality . . . . .                            | 15       |
| 2.2.1.2  | Access Methods . . . . .                         | 15       |
| 2.2.1.3  | Join Methods . . . . .                           | 18       |
| 2.2.1.4  | Join Types . . . . .                             | 19       |
| 2.2.1.5  | Join Orders . . . . .                            | 19       |
| 2.2.1.6  | Partition Pruning . . . . .                      | 19       |
| 2.2.1.7  | Parallel Execution . . . . .                     | 20       |
| 2.2.2    | Adaptive Query Optimization . . . . .            | 21       |
| 2.3      | Indexes . . . . .                                | 22       |
| 2.3.1    | Developer or Admin? . . . . .                    | 23       |
| 2.3.2    | Access Paths and Indexes . . . . .               | 24       |
| 2.3.3    | Statistics . . . . .                             | 24       |
| 2.3.4    | Predicates: Equality before Inequality . . . . . | 25       |
| 2.3.5    | Predicates: LHS vs RHS . . . . .                 | 28       |

|          |  |           |
|----------|--|-----------|
| 2.3.6    | Function-Based Indexes and NULLS . . . . .                     | 29        |
| 2.3.7    | Predicates: The WHERE Clause . . . . .                         | 30        |
| 2.3.8    | Full Table Scans . . . . .                                     | 32        |
| 2.3.9    | Top-N Queries and Pagination . . . . .                         | 32        |
| 2.3.10   | Index-Organized Tables . . . . .                               | 33        |
| 2.3.11   | Beyond B-Trees: Bitmap Indexes . . . . .                       | 34        |
| 2.4      | Subqueries . . . . .   | 34        |
| 2.4.1    | Scalar Subqueries . . . . .                                    | 34        |
| 2.4.2    | Nested and Correlated Subqueries . . . . .                     | 35        |
| 2.4.3    | Subquery Unnesting . . . . .                                   | 35        |
| 2.4.4    | Combined Nested Subqueries . . . . .                           | 36        |
| 2.4.5    | Subqueries with DISTINCT . . . . .                             | 37        |
| 2.4.6    | Inline Views and Factored Subqueries . . . . .                 | 38        |
| 2.5      | Joins . . . . .  | 40        |
| 2.5.1    | Nested Loops . . . . .   | 42        |
| 2.5.2    | Hash Join . . . . .  | 43        |
| 2.5.2.1  | Join Orders and Join Trees . . . . .                           | 43        |
| 2.5.2.2  | Partitioned Hash Joins . . . . .                               | 45        |
| 2.5.3    | Sort-Merge Join . . . . .                                      | 45        |
| 2.5.4    | Join Performance: ON vs WHERE . . . . .                        | 46        |
| 2.6      | Hints . . . . .  | 47        |
| 2.6.1    | When To Use Hints . . . . .                                    | 47        |
| 2.6.2    | When Not To Use Hints . . . . .                                | 48        |
| 2.6.3    | Named Query Blocks . . . . .                                   | 49        |
| 2.6.4    | Global Hints . . . . .   | 49        |
| 2.6.5    | Types of Hints . . . . .                                       | 49        |
| 2.6.5.1  | Optimization Goals and Approaches . . . . .                    | 50        |
| 2.6.5.2  | Optimizer Hints . . . . .                                      | 50        |
| 2.6.5.3  | Access Path Hints . . . . .                                    | 51        |
| 2.6.5.4  | Join Order Hints . . . . .                                     | 52        |
| 2.6.5.5  | Join Operation Hints . . . . .                                 | 52        |
| 2.6.5.6  | Parallel Execution Hints . . . . .                             | 54        |
| 2.6.5.7  | Query Transformation Hints . . . . .                           | 56        |
| 2.6.5.8  | Miscellaneous Hints . . . . .                                  | 58        |
| 2.6.6    | SQL Optimization Techniques . . . . .                          | 62        |
| <b>3</b> | <b>PL/SQL</b> . . . . .  | <b>65</b> |
| 3.1      | Compilation . . . . .  | 66        |
| 3.2      | Bind Variables . . . . .                                       | 67        |
| 3.2.1    | PL/SQL Variables . . . . .                                     | 67        |
| 3.2.2    | Bind Peeking . . . . .   | 69        |
| 3.2.3    | Adaptive Cursor Sharing and Adaptive Execution Plans . . . . . | 69        |
| 3.2.4    | Generic Static Statements . . . . .                            | 70        |
| 3.3      | Loops, Cursors, and Bulk Operations . . . . .                  | 71        |
| 3.3.1    | Collections . . . . .  | 72        |
| 3.3.2    | Performance Comparisons . . . . .                              | 73        |
| 3.3.2.1  | Explicit vs Implicit Cursors . . . . .                         | 73        |
| 3.3.2.2  | The Impact of Context Switches . . . . .                       | 74        |
| 3.3.2.3  | Table Functions . . . . .                                      | 74        |
| 3.3.3    | Caveats . . . . .  | 76        |
| 3.4      | Caching . . . . .  | 76        |
| 3.4.1    | Side Effects . . . . .   | 76        |
| 3.4.2    | Alternatives . . . . .   | 77        |
| 3.4.2.1  | DETERMINISTIC Functions . . . . .                              | 78        |

|                     |  |           |
|---------------------|--|-----------|
| 3.4.2.2             | The RESULT_CACHE Option . . . . .                              | 78        |
| 3.4.2.3             | DETERMINISTIC vs RESULT_CACHE . . . . .                        | 80        |
| 3.4.3               | The UDF Pragma . . . . .                                       | 81        |
| 3.4.4               | The NOCOPY Directive: To Pass By Value or Reference? . . . . . | 81        |
| <b>4</b>            | <b>Data Modelling</b>  | <b>83</b> |
| 4.1                 | Partitioning . . . . .   | 83        |
| 4.1.1               | Partitioned Indexes . . . . .                                  | 84        |
| 4.1.2               | Caveats . . . . .  | 85        |
| 4.1.3               | Recommendations . . . . .                                      | 85        |
| 4.1.3.1             | Single-Level Partitioning . . . . .                            | 86        |
| 4.1.3.2             | Composite Partitioning . . . . .                               | 86        |
| 4.1.3.3             | Prefixed vs Non-Prefixed Local Indexes . . . . .               | 86        |
| 4.1.3.4             | Partitioned vs Non-Partitioned Global Indexes . . . . .        | 86        |
| 4.2                 | Compression . . . . .  | 87        |
| 4.2.1               | Compression Methods . . . . .                                  | 87        |
| 4.2.1.1             | BASIC and OLTP . . . . .                                       | 87        |
| 4.2.1.2             | Hybrid Columnar Compression . . . . .                          | 88        |
| 4.2.2               | Performance Considerations . . . . .                           | 88        |
| 4.2.2.1             | Size Reduction . . . . .                                       | 88        |
| 4.2.2.2             | CPU Overhead . . . . .   | 89        |
| <b>5</b>            | <b>Glossary</b>  | <b>91</b> |
| <b>Bibliography</b> |  | <b>95</b> |
