|---|-----------|
| About.....  | 1         |
| <b>Chapter 1: Getting started with Flask.....</b>   | <b>2</b>  |
| Remarks.....  | 2         |
| Versions.....   | 2         |
| Examples.....   | 2         |
| Installation - Stable.....  | 2         |
| Hello World.....  | 3         |
| Installation - Latest.....  | 3         |
| Installation - Development.....   | 3         |
| <b>sphinx.....</b>  | <b>3</b>  |
| <b>py.test.....</b>   | <b>4</b>  |
| <b>tox.....</b>   | <b>4</b>  |
| <b>Chapter 2: Accessing request data.....</b>   | <b>5</b>  |
| Introduction.....   | 5         |
| Examples.....   | 5         |
| Accessing query string.....   | 5         |
| Combined form and query string.....   | 5         |
| Accessing form fields.....  | 6         |
| <b>Chapter 3: Authorization and authentication.....</b>                                   | <b>7</b>  |
| Examples.....   | 7         |
| Using flask-login extension.....  | 7         |
| <b>General idea.....</b>  | <b>7</b>  |
| <b>Create a LoginManager.....</b>   | <b>7</b>  |
| <b>Specify a callback used for loading users.....</b>                                     | <b>7</b>  |
| <b>A class representing your user.....</b>  | <b>8</b>  |
| <b>Logging the users in.....</b>  | <b>8</b>  |
| <b>I have logged in a user, what now?.....</b>  | <b>9</b>  |
| <b>Logging users out.....</b>   | <b>10</b> |
| <b>What happens if a user is not logged in and I access the current_user object?.....</b> | <b>10</b> |

|   |           |
|---|-----------|
| <b>What next?</b> .....   | <b>10</b> |
| Timing out the login session.....   | 11        |
| <b>Chapter 4: Blueprints</b> .....  | <b>12</b> |
| Introduction.....   | 12        |
| Examples.....   | 12        |
| A basic flask blueprints example.....   | 12        |
| <b>Chapter 5: Class-Based Views</b> .....   | <b>14</b> |
| Examples.....   | 14        |
| Basic example.....  | 14        |
| <b>Chapter 6: Custom Jinja2 Template Filters</b> .....  | <b>15</b> |
| Syntax.....   | 15        |
| Parameters.....   | 15        |
| Examples.....   | 15        |
| Format datetime in a Jinja2 template.....   | 15        |
| <b>Chapter 7: Deploying Flask application using uWSGI web server with Nginx</b> .....           | <b>16</b> |
| Examples.....   | 16        |
| Using uWSGI to run a flask application.....   | 16        |
| Installing nginx and setting it up for uWSGI.....   | 17        |
| Enable streaming from flask.....  | 18        |
| Set up Flask Application, uWSGI, Nginx - Server Configurations boiler template (default, p..... | 19        |
| <b>Chapter 8: File Uploads</b> .....  | <b>24</b> |
| Syntax.....   | 24        |
| Examples.....   | 24        |
| Uploading Files.....  | 24        |
| <b>HTML Form</b> .....  | <b>24</b> |
| <b>Python Requests</b> .....  | <b>24</b> |
| Save uploads on the server.....   | 25        |
| Passing data to WTForms and Flask-WTF.....  | 25        |
| PARSE CSV FILE UPLOAD AS LIST OF DICTIONARIES IN FLASK WITHOUT SAVING.....                      | 26        |
| <b>Chapter 9: Flask on Apache with mod_wsgi</b> .....   | <b>28</b> |
| Examples.....   | 28        |

|  |           |
|--|-----------|
| WSGI Application wrapper.....                                | 28        |
| Apache sites-enabled configuration for WSGI.....             | 28        |
| <b>Chapter 10: Flask-SQLAlchemy.....</b>                     | <b>30</b> |
| Introduction.....  | 30        |
| Examples.....  | 30        |
| Installation and Initial Example.....                        | 30        |
| Relationships: One to Many.....                              | 30        |
| <b>Chapter 11: Flask-WTF.....</b>                            | <b>32</b> |
| Introduction.....  | 32        |
| Examples.....  | 32        |
| A simple Form.....   | 32        |
| <b>Chapter 12: Message Flashing.....</b>                     | <b>33</b> |
| Introduction.....  | 33        |
| Syntax.....  | 33        |
| Parameters.....  | 33        |
| Remarks.....   | 33        |
| Examples.....  | 33        |
| Simple Message Flashing.....                                 | 33        |
| Flashing With Categories.....                                | 34        |
| <b>Chapter 13: Pagination.....</b>                           | <b>35</b> |
| Examples.....  | 35        |
| Pagination Route Example with flask-sqlalchemy Paginate..... | 35        |
| Rendering pagination in Jinja.....                           | 35        |
| <b>Chapter 14: Redirect.....</b>                             | <b>37</b> |
| Syntax.....  | 37        |
| Parameters.....  | 37        |
| Remarks.....   | 37        |
| Examples.....  | 37        |
| Simple example.....  | 37        |
| Passing along data.....                                      | 37        |
| <b>Chapter 15: Rendering Templates.....</b>                  | <b>39</b> |

|   |           |
|---|-----------|
| Syntax.....   | 39        |
| Examples.....   | 39        |
| render_template Usage.....  | 39        |
| <b>Chapter 16: Routing.....</b>   | <b>41</b> |
| Examples.....   | 41        |
| Basic Routes.....   | 41        |
| Catch-all route.....  | 42        |
| Routing and HTTP methods.....   | 43        |
| <b>Chapter 17: Sessions.....</b>  | <b>44</b> |
| Remarks.....  | 44        |
| Examples.....   | 44        |
| Using the sessions object within a view.....  | 44        |
| <b>Chapter 18: Signals.....</b>   | <b>46</b> |
| Remarks.....  | 46        |
| Examples.....   | 46        |
| Connecting to signals.....  | 46        |
| Custom signals.....   | 46        |
| <b>Chapter 19: Static Files.....</b>  | <b>48</b> |
| Examples.....   | 48        |
| Using Static Files.....   | 48        |
| Static Files in Production (served by frontend webserver).....                      | 49        |
| <b>Chapter 20: Testing.....</b>   | <b>52</b> |
| Examples.....   | 52        |
| Testing our Hello World app.....  | 52        |
| Introduction.....   | 52        |
| Defining the test.....  | 52        |
| Running the test.....   | 53        |
| Testing a JSON API implemented in Flask.....  | 53        |
| Testing this API with pytest.....   | 53        |
| Accessing and manipulating session variables in your tests using Flask-Testing..... | 54        |
| <b>Chapter 21: Working with JSON.....</b>   | <b>57</b> |
